REVIEW THE 6 S’s

**Silver Tape**
Check to make sure that the security tape has not been removed, punctured, or torn.

**Spare Parts**
Make sure there are no extra parts attached to the machine (ex: extra cords, flash drives).

**Skimmer**
Make sure that nothing about the machine has been altered and that a card “skimmer” has not been added.

**Simmer**
Make sure the EMV slot does not contain excessive scratch marks or an obstruction called a “shimmer”.

**Screws**
Check the base of each machine to ensure that no screws are loose or out of place.

**Serial Numbers**
Check the base of the machine to ensure that the serial number is correct.

If you detect any issues, immediately stop processing credit cards on the terminal and contact your supervisor or security@umn.edu.
